July 23, 1948

U. S. Atomic Energy Commission
Oak Ridge Laboratory Division
Post Office Box E
Oak Ridge, Tennessee

Attention: Mr. F. H. Belcher

Subject: Free Samples of Fission Iodine

Gentlemen:

We expect to have radioiodine separated from fission products within a few days and would like to send free samples of this material to some of our regular radioiodine customers for evaluation.

Most of these customers are already receiving radioiodine free of charge under the Atomic Energy Commission's program for free distribution of radioiodine, radiophosphorus, and radiosodium. In this case, handling charges would not be collected and the material would be shipped prepaid. We propose to distribute samples of up to 100 millicuries to the following institutions:

Columbia University	Dr. G. Failla
Harper Hospital	Dr. K. E. Corrigan
Harvard University	Dr. H. L. Blumgart
Massachusetts General Hospital	Dr. E. M. Chapman
Massachusetts Memorial Hospital	Dr. J. F. Ross
~~Mayo Clinic~~	~~Dr. F. H. Keating, Jr.~~
Maxfield Clinic	Dr. J. R. Maxfield, Jr.
Memorial Hospital	Dr. C. P. Rhoads
Montefiore Hospital	Dr. S. M. Seidlin
Mount Sinai Hospital	Dr. L. R. Wasserman
University of Wisconsin	Dr. E. S. Gordon
Washington University	Dr. W. G. Scott
Western Reserve University	Dr. H. L. Friedell

Please inform us if this meets with your approval.

Very truly yours,

OAK RIDGE NATIONAL LABORATORY
