

Colleagues,

It is my pleasure to announce that I have selected Mr. Paul Golan to be the Acting Manager of the Oak Ridge Office. Paul will be assuming the Manager's role upon Gerald Boyd's retirement effective April 3rd, 2011. The Oak Ridge Office is one of the Department of Energy's (DOE) most complex portfolios, and the Oak Ridge Manager is responsible for coordinating Office of Science, Environmental Management, and Nuclear Energy functions along with a variety of key reservation infrastructure support services. The Oak Ridge Reservation is home to thousands of federal employees and DOE contractors.

Mr. Golan comes to Oak Ridge with a strong background in all areas of DOE programs. Paul is a highly qualified career senior executive who has broad DOE experience. He is currently serving as DOE's Site Office Manager at the SLAC Site Office, which oversees the SLAC National Accelerator Laboratory. He has previously served in high-level DOE positions including Director and Deputy Director, Office of Civilian Radioactive Waste Management; the Assistant Secretary of Energy/Chief Operating Officer for the Office of Environmental Management; and the Field Office Manager and Deputy Manager of the DOE's Site Office at Rocky Flats. Please join me in welcoming Paul to Oak Ridge.

Bill Brinkman
