

The Office of Management (MA) web site has a new look and feel. The new web site incorporates the DOE standard format and appearance and provides for enhanced structure, better organization of information, and improved search capabilities.

The new MA web site consolidates and organizes information from the various offices within MA (Aviation, Administration, Competitive Sourcing, Engineering and Construction Management, Executive Secretariat, and Procurement and Assistance Management) based on function and services, such as administrative services, project and information management, procurement and financial assistance, correspondence, policy and guidance, competitive sourcing, and history and heritage, rather than by organization. The goal is to provide easier, more seamless access to information for all of our stakeholders.

To make the implementation of the new Office of Management web site smoother, visitors to the old sites will be redirected to the new web site. If you have bookmarks to specific URLs, you will need to update them accordingly.

Contact Paul Coombs at 202-287-1703, or at paul.coombs@hq.doe.gov with any questions or concerns about the new Office of Management web site.
