

The Oak Ridge Office Employee Health Station (EHS) still has influenza vaccine available. All Federal and support service contractor employees who would like a vaccination may receive one until the available vaccine has been exhausted. The schedule will continue to be 9:00 a.m. to 11:00 a.m. and 1:00 p.m - 4:00 p.m. daily. Consent forms are available in the Health Station.

Employees under 18 years of age must bring written permission from a parent or guardian before receiving the vaccine. Individuals who are allergic to eggs, chicken, chicken feathers, chicken dander, or any component of the vaccine should not receive a vaccination except from their private physician. Individuals who have any acute respiratory disease, active infection, or are pregnant should not receive the vaccine. If you are allergic to Thimerosal, a component of the vaccine, you should request the injection from your private physician.
