

On Monday, March 5, 2012, wireless connectivity within the Oak Ridge Federal Office Building (FOB) and Building 2714 Auditorium will become reality. This is a “guest” wireless network and is neither secure nor encrypted. Visitors who bring their own wireless devices to the ORO campus can now connect to the Internet in certain locations such as conference rooms (excluding the Basement conference rooms in the FOB). Please be aware that this service does not provide access to internal ORO IT resources. The intent of “guest” wireless is to grant short-term access for non-ORO individuals who have legitimate need for wireless connectivity while on site.

To access the guest service, point your wireless device to “DOE-Guest,” open a web browser, read and accept the terms of use, and supply a valid email address.

Users connecting to the DOEORO GWN are required to agree to the following usage agreement prior to accessing the Internet.

The DOEORO provides access to the DOEORO Guest Wireless Network (GWN) as a convenience for the purpose of web and e-mail access during your visit. By using the GWN, you agree that your use will not: 1. Violate any law, statute, ordinance, rule, or regulation - including without limitation those governing export control, consumer protection, unfair competition, antidiscrimination, obscenity, or improper access to protected computer systems or stored communications; 2. Result in waste, fraud, or abuse toward DOEORO, DOE, or any other organization; or 3. Introduce malevolent software or devices that may damage, interfere with, or surreptitiously intercept or expropriate, any system, data, or personal information. Additionally, you agree that your use will not be defamatory, threatening or harassing, and that it will not infringe any third party's copyright, patent, trademark, trade secret, or other proprietary rights. You agree that you will not use the GWN for DOEORO activities, or communication regarding DOEORO activities, except as an avenue to access DOEORO internal network through approved access controls. You also acknowledge and understand that the GWN is not protected or encrypted, that uninterrupted service is not guaranteed, and that you are solely responsible for the security of your system, data, and communications. You agree and understand that you have no expectation of privacy for your activities on the GWN, and that DOEORO retains the right to monitor all GWN traffic, to access any contents, and to disclose all or part of the information gained to authorized officials or agencies without prior notice to, or consent from, you or any other user, sender, or addressee. If you wish to continue to use the GWN, please input your email address below and push the "Accept" button below to indicate your awareness of and consent to the foregoing terms and conditions of use. Your acceptance will be electronically stored. DISCONNECT IMMEDIATELY if you do not agree.
