

DOE Order 471.1B includes a requirement to provide awareness guidance concerning Unclassified Controlled Nuclear Information (UCNI) for any employee who has or may have access to UCNI. Personnel must be briefed periodically on the responsibilities for identifying and protecting UCNI. This has been accomplished primarily through inclusion of UCNI awareness in Annual Security Briefings. However, because some unclassified personnel routinely work with or have access to UCNI, but are not required to complete the Annual Security Briefing, the Classification Office has developed the attached presentation. For convenience, this briefing is also available on the ORO Sharepoint Site at <https://sharepoint.oro.doe.gov/ORGS/SECURITY/Pages/default.aspx>.

Questions regarding UCNI or any other Controlled Unclassified Information should be directed to the ORO Classification office at 576-2659 or 576-0754.
