

Colleagues,

As you know, Neile Miller, NNSA Principal Deputy Administrator, recently announced her intention to leave the Department of Energy. Now that I have begun my tenure as Secretary, I have asked her to stay on as Acting NNSA Administrator and Acting Under Secretary for Nuclear Security through the end of June.

Neile has graciously accepted my request to extend her time leading DOE's nuclear security enterprise. In doing so, she continues to demonstrate a selfless commitment to public service. Neile brings strong leadership, intellect, and management during a critical juncture at DOE. I am grateful for her service to the Department at this time and hope you will join me in thanking her.

Sincerely,

Ernest J. Moniz
