SUBJECT: MEDIC BLOOD DRIVE

Medic Blood Drives in January, April and August 1999 have resulted in the collection of **251 units of blood!**

These collections were very successful. Medic continues to extend Blanket Family Coverage to all ORO and OSTI Federal employees.

All donors will receive results of their cholesterol screening test in the mail within the next four weeks. All donors will receive blood replacement coverage and freedom from U.S. Blood Centers processing charges for one year for each unit of blood donated. When blood is used, the patient or his/her representative must notify Medic so that blood used may be replaced.

Medic again expresses sincere appreciation to all donors in the DOE and OSTI Blood Drives.

If you have any questions about the Blood Drive Program, please contact Iris Housley, RN, COHN-S at 576-0682.
